

# Short-Term Volunteer Program

South Africa

B-Strong Foundation has been working with ASC Göttingen for over a decade in the Long Term Volunteer Program (one year minimum stay) catering for young Germans, between the ages of 18–28. We are now proud to introduce the Short Term Volunteer Program (STVP) for a three months period. We have been working in the development sector for many years and together, we have carefully selected four main regions and their respective projects. Our aim is to connect young volunteers to communities in a way that is beneficial to all involved.

Are you.....

- Between the ages of 18 to 28 years?
- Interested in spending 3 months experiencing new cultures and living in a community in the Eastern Cape of South Africa?
- Are you willing to engage and actively working in projects of the receiving organisation and participating in the educational, cultural and sporting accompanying programs which are linked to the community in the region?

If so, then have a look at the four selected regions to better understand your involvement and commitment to each should you wish to apply.

Coffee Bay along the Wild Coast of Eastern Cape, South Africa. It plays host to a truly humble and relaxed community with a few primary and secondary schools and a passionate sporting community of youngsters. Mdumbi Backpackers has made a major difference in the community and together with the community and outside assistance they are internationally known as one of the most amazing places needed to be visited. The program includes working in two schools and the community sporting and cultural programs as well as being involved in the activities at the Backpackers.

Being one of the larger cities in the Eastern Cape, East London hosts a number of amazing projects both cultural and sporting, but for our program we focus our attention on two primary schools in a disadvantaged area with whom we have a long standing relationship with in providing support to. We are also involved in some additional projects varying from Children's Homes to sports clubs. So the choices are a bit more varied in this larger city, but the impact and experience received for the volunteer is still incredible and the community involvement vast.
